PART 2. Full Text of the Announcement

A. PROGRAM DESCRIPTION

The Office of Juvenile Justice and Delinquency Prevention (OJJDP) was established to support and guide states and localities as they work to prevent delinquency and involvement of youth with the justice system and to improve their youth justice systems and services. OJJDP is committed to continued evolution of our nation's juvenile justice system to a system that is in contact with children and youth only when deemed necessary to maintain community safety and protection; a system that is free of racial and ethnic disparities where all due process protections are fairly and equitably afforded to every child and youth in its care; and a system that ensures accountability and provides developmentally appropriate, trauma informed, and properly tailored treatment, rehabilitation, education, and well-being supports to the children and youth being served.

OJJDP envisions a nation where our children are healthy, educated, and free from violence. If they come into contact with the juvenile justice system, the contact should be rare, fair, and beneficial to them.

The purpose of the FY 2022 Formula Grants Program solicitation is two-fold:

1. Create an overarching, developmentally-appropriate, and trauma-informed framework for states to use to inform and connect youth justice work to development of individual and multi-agency, comprehensive state plans that support the well-being of all youth.
2. Give specific instruction for the 2021 Three-Year Plan to achieve the formula grant program goals.

In support of OJJDP's vision, OJJDP's Formula Grant Program aims to enhance states' capacity to:

1. Prevent juvenile delinquency.
2. Protect, support, and ensure the fair treatment of youth who come in contact with the juvenile justice system and work to eliminate racial and ethnic disparities at all decision and contact points.
3. Support the well-being of youth involved or at risk of being involved in the juvenile justice system.
4. Develop and sustain state-level juvenile justice system reform to improve positive youth outcomes.
5. Ensure compliance with the requirements of the JJDP Act.

OJJDP supports the states in their efforts to address the causes for the disproportionate number of youth of color in the juvenile justice system and identify new and innovative ways they can achieve racial equity and fairness, increase the availability and types of developmentally-appropriate evidence-based prevention and intervention programs and practices, increase the number of evidence-based programs and practices to reduce the number of youth in custody and the number of youth who come in contact with the juvenile justice system, and improve the juvenile justice system through policy and practice reforms, professional development, and full participation of youth and families in the analyses of problem areas and development of solutions and assessment of results.
